**CARBO-XXXIV: International conference on
“Emerging frontiers in Carbohydrates Chemistry and Glycobiology”
At Department of Chemistry, University of Lucknow, Lucknow
December 5-7, 2019**

The Association of Carbohydrate Chemists and Technologists, India (ACCTI) is a scientific body consisting of academicians, scientists, technologists and industrialists actively involved in Carbohydrate Research in the country. The Association is organizing Carbohydrate Conferences/Symposia (CARBO series) in collaboration with various Universities and Research Institutes in India since 1984, with the aim of developing viable platform for effectual interactions among scientists and industrialists.

The International Conference on “Emerging frontiers in Carbohydrates Chemistry and Glycobiology” (CARBO-XXXIV) will be held at the **Department of Chemistry, University of Lucknow, Lucknow, India** during December 5-7, 2019 in association with **National Institute of Pharmaceutical and Educational Research (NIPER), Raebareli**.

Lucknow is the capital and largest city of the north Indian State of Uttar Pradesh. This ancient city of gardens, chikan work, kathak dance, ancient architecture & nawabi culture always been known as a multicultural city. The University of Lucknow was established in 1920 and the Department of Chemistry was established in 1927.

The organising committee of CARBO-XXXIV and the Association of Carbohydrate Chemists and Technologists (India) cordially invite you and your colleagues for active participation in the conference to make the event successful in every aspect. Please encourage your students and young researchers to participate in the conference as they are the future of the research world. For further details please visit our website: www.accti.in and contact the organising secretary:
